Second Coming of Christ.

Baltimore, Oct. 4.—That he may make a pilgrimage to the tomb of Jesus Christ at Jerusalem and be there in time for his second coming, is the strange reason why Francis L. Favour resigned his position to-day as clerk in the Baltimore Postoffice.

Mr. Favour proposes to give up all that he has and start to Palestine, and of the Man on Horseback. after the manner of Christ will start on foot and preach along the way.

Mr. Hanna calls on J. Pierpont Morgan. Morgan was alleged to be the

we'll have it called off." There are no trusts, you see, but in case you want orders given to the "owners" of mines, don't call on those owners-call on the head of the trust that does not exist .- Chicago American,

Either Bryan or McKinley.

Either Bryan or McKinley will be elected president the first Tuesday after the first Mouday of next month. Either the republic or the empire

In reply to this assertion Mr. Gaines quotes Jackson's own condemnation of such laws, under which, as Old Hickory himself said, he was clothed "with powers which no one under a Republic ought to possess," and in protest against which he resigned his office and returned to Tennessee.

Mr. Gaines points out that the policy which Jackson then so unqualifiedly denounced as unrepublican Mr. McKinley now upholds and seeks to establish as a permanent and continuous American policy. Of the dangerous powers arising from such a policy Andrew Jackson said, "Nothing will give me more happiness than to learn that Congess in its wisdom shall have distributed them properly and in such a manner as is consonant to our earliest and deepest convictions." William Mc-Kinley, on the other hand, urges the American people to now confirm his assumption of such powers and to reelect him to the Presidency for their further and more dangerous exercise.

The 10,000 inhabitants of the Florida Territory, Mr. Gaines also makes clear, were from the moment of our treaty of acquisition made citizens if they so desired, with the immediate right of future statehood and the protection of the Constitution. President McKinley and his party, to the contrary, propose to hold the Porto Ricans indefinitely and perhaps perpetually outside the protection of the Constitution, without ever intending to make States of the territory or citizens of the people. He also institutes a significant comparison between the record of scandal, immorality and lawlessness in Cuba, Porto Rico and the Philippines under the McKinley administration and the condition of law and order instantly established in the Florida Territory by

The Tennessee Congressman's able and conclusive defense of Jackson is a stroog indictment of McKinley, but this was inevitable under the circumstances. Jackson was true to his Americanism, McKinley has surrendered his soul to the bastard European dream of the conquest and subjugation of weaker and alien peoples. The spirit animating Jackson was that which animated the patriot freemen who founded the Republic. The spirit animating is the Roman spirit which means the destruction of the Republic place.-St. Louis Republic.

Let Republicans Answer This.

Nearly one month has elapsed since William Jennings Bryan delivered his famous speech at Indianapolis. The drew Jackson, in a recent letter effec- peroration of that speech has been read and re-read by countless thousands or peroation was not a mere collection of words. Elequently and forcefully the line was there drawn between the national destiny as conceived by the fathers and contemplated by the followers of William J. Bryan and the "national destiny" conceived by the weak and platitudinous McKinley and the men to whose un-American schemes he yields all too readily. Although the world has become too familiar with the peroration of Bryan's Indianapolis speech, no Republican organ has endeavored to answer • it, no Republican orator has dared to assail it. Read it

"Behold a republic in which civil and religious liberty stimulate all to earnest endeavor and in which the law restrains every hand uplifted for a neighbor's injury-a republic in which citizen is a sovereign, but in which no one cares to wear a crown.
